VOLUME CONTENTS

Number 1

Heat Pipe Research and Design

M. GROLL	1	Editorial
F. POLÁŠEK	3	Heat pipe research and development in East European countries
M. GROLL	19	Heat pipe research and development in Western Europe
F. DOBRAN	67	Heat pipe research and development in the Americas

Number 2

V. M. ARELLANO, E. R. IGLESIAS, J. ARELLANO and M. SCHWARZBLAT	101	Developments in geothermal energy in Mexico —Part XXI. ANAPPRES V1.0: a computerized expert system for interference well-test analysis in geothermal reservoirs
V. H. MORCOS	115	Energy recovery from municipal solid waste incineration—a review
S.-I. GUSTAFSSON, A. LEWALD and B. G. KARLSSON	127	Optimization of bivalent heating systems considering time-of-use tariffs for electricity
T. Y. BONG, K. C. NG and K. O. LAU	133	Water-to-water heat pump test facility
D. P. GEORGIOU	143	The gas turbine–jet pump coupling in cogeneration plants
S. KUMAR, M. PREVOST and R. BUGAREL	151	Exergy analysis of a compression refrigeration system
J. A. KUBIAK and J. PERÉZ	159	Developments in geothermal energy in Mexico —Part XXII. Causes of erosion of the rotor blades in a geothermal turbine
S. A. TASSOU	169	Combined heat and power generation at a sewage treatment plant—a feasibility study
K. P. TYAGI, S. MATHUR, A. SINGH, A. SRINIVAS and G. MATHUR	175	Working fluids for heat transformers
	i	New Patents
	I	Software Survey Section

Number 3

Y. P. WANG and Z. H. CHEN	183	Rapid analysis of heat recovery in industrial plants
D. A. KOUREMENOS, K. A. ANTONOPOULOS and E. ROGDAKIS	189	Predicted performance of solar driven H_2O–LiBr absorption units in Athens
I. GARCÍA-RAZGADO, F. BERMEJO, S. MERCADO, C. HEARD and H. FERNÁNDEZ	201	Developments in geothermal energy in Mexico—Part XXIII. Operation of Cerro Prieto II and III power generation plants
D. A. REAY	209	The use of polymers in heat exchangers
V. K. GUPTA	217	Blowby flow rates to assess energy loss in cascaded refrigeration-heat pump systems
SHEN YOUTING, YUAN XIAOXIONG and SHI WEITAN	225	The use of a mathematical modelling method to determine the optimal retrofitting option of an oil refinery steam system
S. V. SHELTON, W. J. WEPFER and D. J. MILES	233	Square wave analysis of the solid–vapor adsorption heat pump
B. V. S. S. S. PRASAD, D. H. DAS and A. K. PRABHAKAR	249	Pressure drop, heat transfer and performance of a helically coiled tubular exchanger
N. BENNANI, M. PREVOST and A. CORONAS	257	Absorption heat pump cycle: performance analysis of water–glycerol mixture
N. KAYANSAYAN	265	Thermal behavior of heat exchangers in off-design conditions
		Technical Note
E. AZAD and M. ALIAHMAD	275	Thermal performance of waste-heat recuperator with heat pipes for thermal power station
		Book Review
A. WRIGHT	281	"Cogeneration: combined heat & power thermodynamics and economics" by J. H. HORLOCK
		Announcement
	283	Design methodology for enhanced heat transfer
	i	New Patents
	I	Software Survey Section

Number 4

A. BONTEMPS, C. GOUBIER, C. MARQUET and J. C. SOLECKI	285	Heat transfer performance of a toluene loaded two-phase thermosyphon
P. MAJUMDAR and W. M. WOREK	299	Performance of an open-cycle desiccant cooling system using advanced desiccant matrices

L. L. VASILIEV 313 Heat pipe research and development in the U.S.S.R.

S. C. KAUSHIK and RAJESH KUMAR 335 Conceptual thermodynamic design of a dual mode absorption cycle with an auxiliary heat exchanger

F. SANCHEZ and J. M. ALVAREZ 343 Developments in geothermal energy in Mexico —Part Twenty-Four: Two-phase flow–pressure drop in inclined pipes for geothermal applications

M. ZAHEER-UDDIN 357 A control strategy for heat recovery and storage

P. J. HEGGS 367 Minimum temperature difference approach concept in heat exchanger networks

V. R. PATWARDHAN, S. DEVOTTA and V. S. PATWARDHAN 377 A simplified procedure for the estimation of Rankine power cycle efficiency

R. L. WEBB and M. A. DIGIOVANNI 383 Comparison of mixture and pure refrigerant heat pump cycles

i New Patents

I Software Survey Section

Number 5

D. A. REAY 397 Editorial

P. P. VOTSIS, S. A. TASSOU, D. R. WILSON and C. J. MARQUAND 399 Investigation of the performance of a heat pump under frosting and defrosting conditions

A. CARUSO, L. P. GRAKOVICH, R. PASQUETTI and L. L. VASILIEV 407 Heat pipe heat storage performance

P. A. PILAVACHI 411 Heat exchanger R&D, a tool for energy conservation—activities within the non-nuclear energy R&D programme of the European Community

R. SCARICABAROZZI 421 Simple particular solutions and speed calculation of regenerators

J. M. GEORGE, W. MARX and S. SRINIVASA MURTHY 433 Thermodynamic analysis of R22–DMF compression–absorption heat pump

V. HAVELSKÝ and K. MEČÁRIK 447 Heat pump design with thermal storage

K. MEČÁRIK and V. HAVELSKÝ 451 Utilization of geothermal waters for heating by heat pumps

D. A. KOUREMENOS, C. D. RAKOPOULOS and P. KOTSIOPOULOS 457 Performance and emission characteristics of a diesel engine using supplementary diesel fuel fumigated to the intake air

S. MURALI KRISHNA and S. SRINIVASA MURTHY — 467 Experiments on a silica gel rotary dehumidifier

D. N. ASSANIS — 475 Effect of combustion chamber insulation on the performance of a low heat rejection diesel engine with exhaust heat recovery

Case Study

ESSAM FAQEEH, A. M. KHALIFA and A. M. RADHWAN — 485 A case study of cogeneration for Jeddah and Yanbu Petromin refineries in Saudi Arabia

i New Patents

I Software Survey Section

Number 6

A. A. BALLUT — 493 Energy conservation in a catalytic reforming plant

MA TONGZE and HOU ZENGQI — 499 Heat pipe research and development in China

Y. S. H. NAJJAR and M. N. NAHAS — 513 Feasibility of gas turbine-assisted heat pumps for space heating

S. I. PEREIRA DUARTE and R. BUGAREL — 521 Optimal working conditions for an absorption heat transformer—analysis of the H_2O/LiBr theoretical cycle

V. K. SHELEG and S. V. DENISEVICH — 533 Heat pipe cathode-deposited capillary structures and heat exchangers based on them

J. A. KUBIAK and J. F. PERÉZ — 541 Developments in geothermal energy in Mexico —Part Twenty-five: Operating experience with a geothermal wellhead turbine

Case Study

F. A. MOUSA and H. H. HASHEM — 547 Gas turbine exhaust gas heat recovery at South Baghdad (Iraq) power plant

Technical Note

T. SKIEPKO — 553 Effect of reduction in seal clearances on leakages in a rotary heat exchanger

Book Review

D. A. REAY — 561 "High-performance single-phase heat exchangers" by A. ZUKAUSKAS

i New Patents
